

**The Doberman Pinscher Club of Tappan Zee
is proud to present:**

**Sue Ann Lesser, DVM, DAC, CVSMT,
C-Advanced Neurology of VSMT**

Attention

TOPICS TO BE DISCUSSED:

What exactly is Attention? What is not Attention?

What non-training methods will improve Attention?
(Supplements, etc.) How do they work?

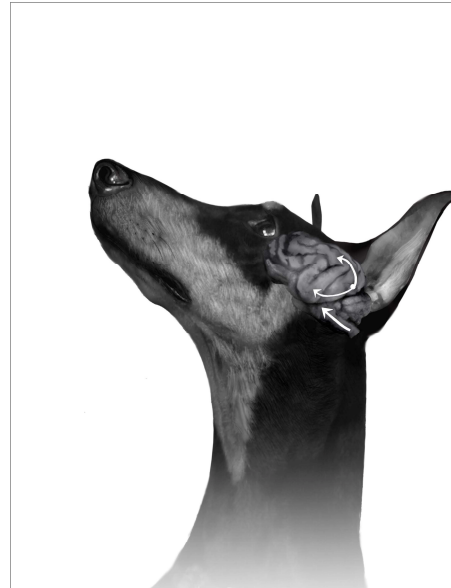

What are the "What?", "Where?" and "Oh my God!!!"
pathways of Attention? How can we use them? What
do these pathways have to do with clicker training?

Attention Failures: What are they? Whose fault is it:
dog or handler?

What should we as handlers be paying Attention to?

And much much more!!!!

This seminar will incorporate the use of brain models,
coloring of diagrams, video clips and a research
project to be conducted during the seminar. Current
research from the fields of neurology, neuroscience, psychology and canine training will be
presented and discussed. This is NOT a training seminar! It is an education seminar designed to
help the canine performance participant to better understand this crucial aspect of any good
training relationship. A completely illustrated and referenced workbook will be provided to all
participants. Space is limited to 65.

THE DATE: SATURDAY, SEPTEMBER 18th, 9AM-4PM

THE PLACE: TOP DOG OBEDIENCE, FLANDERS, NJ

Directions can be found on the Top Dog website (www.topdogobedience.com).

FAQs

Will I understand the neurology? I have no science background.

Yes, you should. If you don't understand something, you only need to ask. This is the third seminar in this series and few people so far have been confused totally by the scientific language.

Who do I call if I get lost?

Call Michael *on the day of the seminar only* at 631-553-0532. If he can't help you, he will find someone who can.

Is this just for Doberman people?

No, it is for owners of all breeds. If you want to be a better partner to your dog, we encourage you to attend.

I have specific dietary requirements. Is there food nearby?

Yes, there are two large grocery stores within a mile of the building. There are two MacDonald's, a Wendy's, a Chinese restaurant, Panera Bread, Longhorn, Macaroni Grill, The After, Marketplace, and other restaurants within three miles.

I hate to get up in the morning, Will this seminar start on time?

Yes, it will start promptly at 9. The building will be open to non-club members at 8AM.

While the seminar is designed to be done at 4PM, these seminars typically end closer to 5.
